

INDEX TO VOLUME XIII.

A

- Advertisements, notices of new, 28, 72, 109, 142, 175, 265, 340, 370, 308, 343, 379, 408.
- Agricultural Chemist, appointment of, Md. State, 262.
- Agricultural Colleges—in Michigan, 71, 230; memorial from, 242—in Maryland, organization of, 197, 198, 194, 227, 363; election of officers of, 252, 253—in Virginia, 164—in New York, 229.
- Memorial to Congress in behalf of, 293, 403.
- Agricultural Department, necessity for an, 172; by Gen. Hughes, 221.
- Agriculture, Md. legislative proceedings on, 307, 338, 339, 378; in Congress, 236, 366—scientific, slow progress of, & aid to, by the several States of the Union, 118; statistics of, in Ohio, 262; of productions of in the Baltimore market for 1857, 262.
- Agricultural Society, Md. State, proceedings of Ex. Com. in June, 14, 37; in Sept. 124; in Nov. 204; Dec. 233; Jan. 267; March, 340—application of, for aid, to the Legislature, 259, 267, 328; bill in favor of, 295; votes and proceedings on, 375—trial by, of Mowers and Reapers, 16, 53; official report of trial, 63—Cattle Show of, 33, 55, 107, 124, 151, 162; programme of Show (see cover of Oct.); delegates to, from N. York, 78; from St. Louis, 107; to U. S. Agr. Soc. 232; reports of Judges, 151, 206; visit of the members of the Cabinet to Show of, 148; annual meeting of, 147, 163; proposed amendment to constitution of, 148, 149; election of officers of, 149, 150; finances of, 226, 233, 328.
- Agricultural Society, U. S., trial of Reapers, &c. by, at Syracuse, 18, 54, 269; discussion relative to State aid to agriculture, 118; premiums of, at annual show, 123; Gen. T. Tilghman's remarks at Louisville, 133; election of officers of, 252; invitation of Md. Institute to, to hold Show at Baltimore, 233; memorial to Congress by, 298.
- Agricultural Societies—exhibition at Upperville, Va. 54; by Valley, at Winchester, 55, 93; at St. Louis, 62, 106; of Washington and Montgomery co. Md. 60, 123; York, Pa. 93; Wythe, Va. 93; Royal, of England, 94; State Shows of, for 1857, 97; discussion on Wheat Culture, in Kent co., Del. 103; Greenbrier, Va. 113; N. C. State, 123, 191; Newboard, 124; Charles co. 142; Frederick co. Md. 143; Va. State, Show of, 124, and premiums awarded at, 192; N. Y. State, 150; Horse Show at Springfield, 160; New Castle, Del. officers of, 160; exhibitions of sundry county, 190; Charles co. 269; address before, of Gen. Hughes, 218; Union, of Va. and North Carolina, premiums awarded at, 222; Va. Centennial, officers of, 224.
- Alderson, L. A. on sheep husbandry, 21.
- Alderney Cattle, description of the, 260.
- American Farmer—notice of new volume, 1, 16, 338; its value as a practical journal, 11, 226, 259, 340, 366; agency for, 66, 203, 318, 300; a new year's intimation, 226; removal of office of, 396; dissolution of partnership of editors of, and their addresses to their patrons, 397.
- Analyses—of blood manure, 18; of wheat and clover, 40; of Colombian guano, 79, 81; of Sombbrero guano, 122; of lime, 266; of urine, 315; of cow dung, 315; of various matters, 314; of Nevada

guano, 325; of Phospho-Peruvian guano, 328; of tobacco, 373—on the value of soil, by Dr. Anticell, 299; by others, 405.

- Analytical Chemists, of Germany, 105.
- Angora Goats, purchased by R. Franco, 270.
- Anticell, Dr. on the inutility of soil analysis, 298.
- Artichokes, cultivation of, 277, 319.
- Army Worm, its history and habits, 104.
- Asparagus, culture of, 43, 113, 170, 379, 322.

B

- Baldwin, Dr. R. T., his theory of manuring, 214, 366.
- Baltimore & O. R. R., jaunt on, at the completion of to the West, 20, 69.
- Baltimore, statistics of produce trade, &c. of, for 1857, 262.
- Barley, cultivation of, 277, 319; quantity of seed to the acre, 278; the Java, 344.
- Beans, culture of, 8, 43, 278, 322; fattening properties of, for stock, 238; Lima, 349.
- Beets, cultivation of, 279; manures for, 320.
- Blood manure, analysis of, 18.
- Bloody Murrain, causes of, and cure for, 305.
- Bones, how dissolved in the manure heap, 107; how to prepare for use, 244.
- Borecole, cultivation of, 279.
- Brackenridge, W. D., floricultural contributor to the Farmer, 61.
- Breeding, Lord Spencer's rules for selection of male animals for, 256; Mr. Nouble's do. 395; points of a good bull, 400.
- Breadstuffs, demand and prices for, 95, 135, 198, 205, 228; in Europe, 96; in New York, 117; in Canada, 168.
- Broccoli, cultivation of, 323.
- Books and other publications—107, 120, 163, 240, 174, 230, 239, 345.
- Buckwheat, cultivation of, 6, 7, 8, 112.
- Budding and inoculating fruit trees, 43, 78.
- Bushes, briars, &c. to eradicate, 7, 43, 244, 321.
- Business affairs, expected improvement in, 269.

C

- Cabbages, cultivation of, 8, 43, 77, 278, 322, 383; Savoy, 8; preparation of a bed for, 113.
- Calcium, Chloride of, 386.
- Chloride of Lime, 387.
- Calvert, Ch. B., the Riverdale estate of, 120; on surface manuring, 235; reply to, 241.
- Carrots, culture of, 319, 321, 349; great yield of, 365.
- Cattle, sale of Mr. Gowen's short horns, 17, 46; by Col. A. Matthews, 71; importation of Alderney, 139, 138; sale of short horns in Illinois, 139; importation of, by Tacon, Batts & Co., 141; diseases of, 240, 260; on grazing and graining, by Mr. M. Loughborough, 307; to ascertain the weight of live, 377; description of the Alderney, 360; fine lot of, in Va., 402.
- Cattle yards, management of, 119.
- Cauliflowers, culture of, 8, 77, 270, 329.
- Celery, culture of, 8, 43, 279, 363.
- Cement, for leaky roofs, 73.
- Cholera, hog—(see Hog cholera.)
- Clemson, T. G. on Microscopic Organisms, 114.
- Clayey Land, how to work, 212.
- Clover, cost of a huller, 5, 30; quantity of seed for an acre, 14, 244; when and how to sow, 244; analysis of, 40, 389; culture of, 389.
- Chalk, its use on stiff clay soil, 355.
- Charcoal, fattening properties of, for turkeys, 240.
- Cheese, cream, how to make, 125.

INDEX TO VOLUME XIII.

A

Advertisements, notices of new, 28, 72, 109, 142, 175, 265, 340, 370, 308, 343, 379, 408.

Agricultural Chemist, appointment of, Md. State, 262.

Agricultural Colleges—in Michigan, 71, 230; memorial from, 242—in Maryland, organization of, 197, 198, 194, 227, 363; election of officers of, 252, 253—in Virginia, 164—in New York, 229.

Memorial to Congress in behalf of, 293, 403.

Agricultural Department, necessity for an, 172; by Gen. Hughes, 221.

Agriculture, Md. legislative proceedings on, 307, 338, 339, 378; in Congress, 236, 366—scientific, slow progress of, & aid to, by the several States of the Union, 118; statistics of, in Ohio, 262; of productions of in the Baltimore market for 1857, 262.

Agricultural Society, Md. State, proceedings of Ex. Com. in June, 14, 37; in Sept. 124; in Nov. 204; Dec. 233; Jan. 267; March, 340—application of, for aid, to the Legislature, 259, 267, 328; bill in favor of, 295; votes and proceedings on, 375—trial by, of Mowers and Reapers, 16, 53; official report of trial, 63—Cattle Show of, 33, 55, 107, 124, 151, 162; programme of Show (see cover of Oct.); delegates to, from N. York, 78; from St. Louis, 107; to U. S. Agr. Soc. 232; reports of Judges, 151, 206; visit of the members of the Cabinet to Show of, 148; annual meeting of, 147, 163; proposed amendment to constitution of, 148, 149; election of officers of, 149, 150; finances of, 226, 233, 328.

Agricultural Society, U. S., trial of Reapers, &c. by, at Syracuse, 18, 54, 269; discussion relative to State aid to agriculture, 118; premiums of, at annual show, 123; Gen. T. Tilghman's remarks at Louisville, 133; election of officers of, 252; invitation of Md. Institute to, to hold Show at Baltimore, 233; memorial to Congress by, 298.

Agricultural Societies—exhibition at Upperville, Va. 54; by Valley, at Winchester, 55, 93; at St. Louis, 62, 106; of Washington and Montgomery co. Md. 60, 123; York, Pa. 93; Wythe, Va. 93; Royal, of England, 94; State Shows of, for 1857, 97; discussion on Wheat Culture, in Kent co., Del. 103; Greenbrier, Va. 113; N. C. State, 123, 191; Newboard, 124; Charles co. 142; Frederick co. Md. 143; Va. State, Show of, 124, and premiums awarded at, 192; N. Y. State, 150; Horse Show at Springfield, 160; New Castle, Del. officers of, 160; exhibitions of sundry county, 130; Charles co. 169; address before, of Gen. Hughes, 218; Union, of Va. and North Carolina, premiums awarded at, 222; Va. Centennial, officers of, 224.

Alderson, L. A. on sheep husbandry, 21.

Alderney Cattle, description of the, 260.

American Farmer—notice of new volume, 1, 16, 338; its value as a practical journal, 11, 226, 259, 340, 366; agency for, 66, 203, 318, 300; a new year's intimation, 226; removal of office of, 396; dissolution of partnership of editors of, and their addresses to their patrons, 397.

Analyses—of blood manure, 18; of wheat and clover, 40; of Colombian guano, 79, 81; of Sombbrero guano, 122; of lime, 266; of urine, 315; of cow dung, 315; of various matters, 314; of Nevada

guano, 325; of Phospho-Peruvian guano, 328; of tobacco, 373—on the value of soil, by Dr. Anticall, 299; by others, 405.

Analytical Chemists, of Germany, 105.

Angora Goats, purchased by R. Franco, 270.

Anticall, Dr. on the inutility of soil analysis, 298.

Artichokes, cultivation of, 277, 319.

Army Worm, its history and habits, 104.

Asparagus, culture of, 43, 113, 170, 379, 322.

B

Baldwin, Dr. R. T., his theory of manuring, 214, 366.

Baltimore & O. R. R., jaunt on, at the completion of to the West, 20, 69.

Baltimore, statistics of produce trade, &c. of, for 1857, 262.

Barley, cultivation of, 277, 319; quantity of seed to the acre, 278; the Java, 344.

Beans, culture of, 8, 43, 278, 322; fattening properties of, for stock, 238; Lima, 349.

Beets, cultivation of, 279; manures for, 320.

Blood manure, analysis of, 18.

Bloody Murrain, causes of, and cure for, 305.

Bones, how dissolved in the manure heap, 107; how to prepare for use, 244.

Borecole, cultivation of, 279.

Brackenridge, W. D., floricultural contributor to the Farmer, 61.

Breeding, Lord Spencer's rules for selection of male animals for, 256; Mr. Nouble's do. 395; points of a good bull, 400.

Breadstuffs, demand and prices for, 95, 135, 198, 205, 228; in Europe, 96; in New York, 117; in Canada, 168.

Broccoli, cultivation of, 323.

Books and other publications—107, 120, 163, 240, 174, 230, 239, 345.

Buckwheat, cultivation of, 6, 7, 8, 112.

Budding and inoculating fruit trees, 43, 78.

Bushes, briars, &c. to eradicate, 7, 43, 244, 321.

Business affairs, expected improvement in, 269.

C

Cabbages, cultivation of, 8, 43, 77, 278, 322, 383; Savoy, 8; preparation of a bed for, 113.

Calcium, Chloride of, 386.

Chloride of Lime, 387.

Calvert, Ch. B., the Riverdale estate of, 120; on surface manuring, 235; reply to, 241.

Carrots, culture of, 319, 321, 349; great yield of, 365.

Cattle, sale of Mr. Gowen's short horns, 17, 46; by Col. A. Matthews, 71; importation of Alderney, 139, 138; sale of short horns in Illinois, 139; importation of, by Tacon, Batts & Co., 141; diseases of, 240, 260; on grazing and graining, by Mr. M. Loughborough, 307; to ascertain the weight of live, 377; description of the Alderney, 360; fine lot of, in Va., 403.

Cattle yards, management of, 119.

Cauliflowers, culture of, 8, 77, 270, 322.

Celery, culture of, 8, 43, 279, 363.

Cement, for leaky roofs, 73.

Cholera, hog—(see Hog cholera.)

Clemson, T. G. on Microscopic Organisms, 114.

Clayey Land, how to work, 212.

Clover, cost of a huller, 5, 30; quantity of seed for an acre, 14, 244; when and how to sow, 244; analysis of, 40, 389; culture of, 389.

Chalk, its use on stiff clay soil, 355.

Charcoal, fattening properties of, for turkeys, 240.

Cheese, cream, how to make, 125.

Chemists, analytical, of Germany, 104; value of soil analysis, 291.

Chinese Sugar Cane, mills for grinding, 93, 236, 107, 124, 125, 161; seed of, 225; molasses and sugar from, 125; by Dr. R. Battey, 106; by J. M. Timmons, 124; by W. W. Brown, 279; by Mrs. Small, 294; in China, 295; by Mr. Wright, 135; by A. Shriver, 193; Olcott's book on the, 136; value of, for feeding stock, 168, 349; a challenge relative to, 176; comparative value of with African, 202.

Chives, cultivation of, 279.

Cider and Vinegar, to make, 138, 170.

Clubs, Farmers', formation of recommended, 227 College, St. John's, 139—(see *Agricultural College*.)

G. Hite, 336; Prize Essay on, by Jos. Harris, 359; by T. B. Coursey, 359, 362; Peabody's Prolific, 269, 295, 328, 375; Wyandotte, 328; by Jos. Fantz, 284; Camanche, by Mr. Deas, 294, 344; great product of, by Dr. Parker of S. C. 304.

Corn Planter, Sinclair's, 51.

Cows and Heifers, management of, 42, 179, 212.

Crops, prospects and results of, 22, 25, 26, 27, 34, 46, 48, 66, 90, 96, 97, 142, 161, 174, 176, 225; and the commercial press, 56; by Maj. J. Jones, 97, 90; by a minute observer, 48; at the West, 63; in S. Carolina, 98, 139, 192; in Indiana, 233; prospects for 1858, 284, 362, 401; results of the grain shown by the amount brought to Baltimore market, 261; Rotation of, by Patuxent Planter, 172; by Edwin W. Friend, 216.

Cucumbers, for pickles, 8, 43.

Cyclopedia, New American, 365.

Cymbeline, cultivation of, 348.

Cotton, the price of, 192, 198; a new kind, 299.

Coursey, T. B. experiments by, with various manures, 359, 362.

D

Dairy, best district in the U. S. for the, 13.

Disinfecting agents, 402.

Dixon, T. & J. M. plans by, of country residences, 324, 340, 362, 406.

Draining, value of, 43, 149; and ditching, 76; surface, 211; by G. W. Hughes, 213; by J. W. Johnson, 212; by Prof. Way and C. Johnson, 238.

Drilling, compared with broadcasting, 8; by M. T. Goldsborough, with Bickford & Huffman's guano attachment, 33, 35, 102; advantages of, 41; by T. Hickson, 47; by J. Weybright, 48; by Dr. J. Woods, 50, 71; discussions on in Montgomery, Md. and in Va. 128; by Md. State Ag. Soc. 148. Drill, the Pennoek, 128.

E

Editors, convention of agricultural proposed, 365, 393.

Egg Plants, culture of, 8, 279, 349.

Evergreens, transplanting of, 403.

Egg, within an egg, 139.

Endives, culture of, 8, 43, 78.

English Traits, by R. W. Emerson, 303.

Essays, on Mixed Husbandry, by Patuxent Planter, 172; by E. W. Friend, 216.

F

Farm Economy, by Common Sense, 86.

Farm yard manure—(see *Manure*.)

Farm Yard, suggestions relative to the, 228.

Farm Work, for July, 6; Aug. 40; Sept. 75; Oct. 111; for Nov. 169; Dec. 179; Jan. 211; Feb. 243; March, 275; April, 319; May, 347; June, 381.

Farmers and Planters, the policy of, in view of the present demand for produce, 336.

Farming, in Kentucky, 223; profitable, 290.

Fences, care for the, 8, 179, 212, 244.

Fingers and Toes, to prevent injury from disease of, 180.

Firewood, preparation for a supply of, 212.

Floriculture, for Aug. 53, 61; Sept. 78; Oct. 157; Nov. 171; Dec. 202; Jan. 234; Feb. 267; March, 299; April, 323; May, 377; June, 402.

Flour and Grain, &c. brought to Baltimore in 1857, 263.

Flower Garden, how to make one cheaply, 200.

Founder, cure for, 342.

Friend, E. W. on the Rotation of Crops, 216.

Fruit Trees, on the care of, 7, 383; how affected by muck, 123; quick vegetation of seed of fruit, 168; to preserve from ravages of hares, 177.

Fruit Book, Hooper's Western, 107.

Fruit Growers' Association, discussions at, 185.

G

Garden Work, for July, 8; Aug. 43; Sept. 77; Oct. 113; Nov. 130; Dec. 180; Jan. 212; Feb. 245; March, 278; April, 322; May, 349; June, 383.

Garget, cure for, 255, 305.

Garlic, Rocambole and Shallots, cultivation of, 279.

Gilliam, L. S. on the quantity of rain, 98.

Giddings, Maj. on the culture of the Vine, and the manufacture of Wine in the U. S. 330.

Gilmer, G. C. on surface manuring, lime on wheat, &c. 100.
